

Case Reference: 23/01425/F  
Location: 11 Waterhouse Lane Kingswood

=====

This application is not supported by arboricultural information compliant with BS5837:2012 and therefore I am unable to comment on the impact this scheme will have on the existing tree stock. As the site is next to the conservation area an arboricultural report is required to demonstrate the condition of the existing tree stock, impact on trees within the site and off-site, if any will be removed and where replacement trees will be planted. Until this information is submitted I cannot support this application.
